Mrs. Sanders Badly Injured In Fall At Minerva Home

The many friends of Mrs. Sanders of Minerva, who formerly lived in Cameron, will regret to learn of her painful accident which occurred on Thursday morning at her home. While standing in a door, she accidentally fell out the back steps, breaking both arms above the wrist. Mrs. Sanders was alone at the time of the accident and it was several hours before she received first aid. At the present time she is doing as well as could be expected but is totally unable to do anything for herself.

We are glad to report that Mrs. R. L. Batte who has been confined to her bed for several weeks is now improving.

Interscholastic League Meet Here Friday-Saturday

CHARITY FUNDS ARE LOW AND WORK HAMPERED HERE

Need For More Funds Is Expressed At Meet On Friday

The regular monthly meeting of United Charity Workers was held last Friday, March 6 at 3:30 at the home of Rev. J. P. Love.

Business included discussion of the supplying of food, fuel and employment for destitute families.

The funds of the organization are so low that they must be augmented if the relief work is to continue.

Help has been rendered by the city's paying two thirds of the wage to about thirty men employed on street work. The families of these men are in need and vouchers are given after each day's work, redeemable at local groceries.

The local post, American Legion, has given large quantities of wood and individuals have also given both wood and hauling.

Contributions for further relief work are urgently needed and may be sent to the treasurer, Mrs. W. O. Triggs.

The membership of the United Charity Worker's Board of Directors consists of the following: President, Mrs. Cora Cammer; Secretary, Mrs. Graham Gillis; Treasurer, Mrs. W. O. Triggs; and representatives of the County, City, American Legion, Business and Professional Women's Club, Commercial Club, Federation, and the Baptist, Catholic, Christian, Episcopal, Methodist and Presbyterian churches.

Chairmen of Standing Committees: Employment, Mrs. Cora Cammer and Mrs. H. C. Keith.

"I take this opportunity to express my appreciation to the people of Cameron for their splendid cooperation in the matter of preparing for and entertaining the delegates to the Sixth District Legion Convention Saturday and Sunday. THE OLD HEN CACKLED . . . BUT THE QUESTION IS "WHO LAID THE EGG?"

The end of the period of hard times is at hand, according to Wade McCoy, of Rockdale, who last Thursday was displaying an egg bearing the following inscription: END NEARS! The inscription was in plain, easy to read capital letters—even to the exclamation point—which the old hen probably added to save the exertion of cackling.

McCoy says he will give \$5.00 to any man, woman or child who can, through chemical treatment or otherwise, produce another egg which will duplicate this one. He is firm in the belief that Old Biddy did this job herself, and that the inscription

means that the end of the business depression and hard times is at hand. Supporting that contention, he points to the fact that the price of eggs went up two cents per dozen in Rockdale Saturday and that local farmers that day profited more than \$20 on their egg sales.

McCoy's egg has attracted much attention the past week, several hundred people having inspected it and passed various forms of judgment as to whether the job was really done completely by the hen, or if outside help of some jokester was employed by Old Biddy.—Rockdale Reporter.

PATE CAROTHERS, AGED NEGRO WOMAN DEAD

BORN IN SLAVERY AND WAS RESIDENT IN M. G. COX HOME HERE

Darkies of the old slavery days have rapidly passed away and among them to go was Pate Carothers who was born in slavery, and when a girl became the maid of Miss Sue Glover, who later married Judge T. N. Cox of Clayton, Ala., and was their house girl and maid in their home, and helped them rear their family, and later moved with them to Texas and after the death of Judge Cox and wife, was taken into the home of Mr. and Mrs. M. G. Cox where she remained the same faithful servant, serving them with true devotion and humility that had marked her characteristics through life.

Pate, as she was known by all, was an outstanding darkey. She was a member of the Methodist church, had been from childhood; was always kind and gentle and respectful to all whom she came in contact with; loved children, who in turn respected her and called her "friend Pate." She was past 80 years old at the time of her death Saturday, March 7 at 4:30 p. m. at the home of Mr. and Mrs. M. G. Cox where she had received every attention that could be given her. By special permit of Oak Hill Cemetery Association, she was laid to rest at the feet of her former master and mistress, the late Judge T. N. Cox and wife, amid a profusion of floral offerings, sent in by white friends, many of them attending her funeral, some coming from nearby towns. Rev. N. D. Timmerman, pastor of the First Baptist church, held the ceremony at the grave Sunday afternoon at 4:30 o'clock.

LEGION CELEBRATION IS HELD IN CAMERON MARCH 7-8

District Convention In City Attracts Big Delegation

With more than 150 registrations the Sixth District Convention of the American Legion was held in Cameron Saturday and Sunday, March 7 and 8 under the auspices of Edwin Hardy Post No. 9.

A feature of the celebration program was a patriotic address on Saturday evening at the Yoe high school building with Judge W. C. Davis of Bryan, delivering the speech. Judge Davis was former district attorney here and is now district judge for Brazos county and district. His address was heard by a large number of Legionnaires and people of Cameron.

Delegates from the several counties began arriving in Cameron Saturday and continued through Sunday morning. The Auditorium Hotel lobby was used by invitation of Mgr. S. A. Cottle and the reception committee met the delegates.

On Saturday afternoon the first of the rabbit races program was held at Lawless Green Field. The racing program was continued and closed the program of entertainment on Sunday afternoon. A large crowd witnessed the events. Dogs entered by D. Burke of Chilton won first prize. The races were exciting and afforded an event of fine entertainment for the spectators. Kansas jack rabbits were shipped to Cameron for the races.

On Sunday morning special services were held in the churches for the visiting Legionnaires. On Saturday night a dance was given at the country club with J. D. Lewis playing dance music for the occasion.

At noon Sunday the delegates were served a luncheon at the Legion club rooms in the old grammar school building.

W. R. Hoover, post commander and P. W. Davis, adjutant, directed the program activities in cooperation with committees named at meetings held in February. The convention was a success in every way and the people of Cameron gave their cooperation to make the convention successful.

DEBT TO INDIAN RACE IS DISCUSSED AT MEETING

Miss Rischar Presents Paper On Life Of Red Men

The following interesting paper was read by Miss Rose Rischar at the birthday party celebration of the Business and Professional Women's Club Tuesday evening March 11 on "What have we gained by our relation with the Redman?"

The Redman laid the foundation of the economic greatness of the United States. It is not that we took merely his land; we acquired tobacco, potatoes, tomatoes, maize, peanuts and some additional forty food plants.

The yearly value of these products produced in the United States alone when stated in dollars is incomprehensibly large. We would have developed tobacco in time, maybe, but it took the Indian centuries to develop the art of the plant. The potato became the most popular and widely used vegetable in Europe, even took on a foreign name of Irish because it has saved that country from many terrible famines.

Peanuts have done their best but it seems how the humble tomato is coming to the rescue of Milam county; though we don't use as much catsup and tomato condiments as the northern states. So the slogan from now on may be "Use more tomatoes, instead of, use more cotton."

Corn, the backbone of the Mississippi Valley would probably never have been discovered. Numerous

BODIES TEXAS PATRIOTS BURIED IN AUSTIN CEMETERY

Many From Milam Go To Austin Tuesday For Ceremony

At seven o'clock Tuesday morning a motorcade of several cars led by Sheriff L. L. Blaylock left for Austin to attend the ceremonies attendant upon the re-interment of the remains of two of Milam County's earliest pioneer citizens, Major Benjamin Franklin Bryant and his wife, Roxana Price Bryant, in the State Cemetery. T. B. Weed, funeral director, of Austin, had full charge of the removal of the remains from a private burial place near old Bryant Station in Milam county, the pioneer trading post which was once a prominent center of the activities of the period. It was a village of commercial importance and from it went E. M. Scarborough, prominent Austin merchant, lately deceased, to establish his name as an Austin capitalist. He loved to recount tales of his residence in Bryant Station. This old Indian trading post was a midway stage stop between Marlin and Austin, in days of the Republic of Texas.

On Tuesday in the House of Representatives in joint session with the Senate, Texas paused to do honor to these patriots when the industry of L. W. (Wiltz) Kemp, a former Cameron citizen, and now prominent Texas Company employe, had caused to be removed in discharge of the legislative enactment providing the funds of the state to carry on this patriotic work under his direction and supervision.

The Bryant relatives and descendants from widely separated points in Texas had gathered in Austin to be present for the obsequies. The pall bearers were the following great grandsons: L. R. Bryant of Rogers, H. H. Bryant of Temple, H. D. Bryant of Bartlett, R. G. Bryant of Moulton, E. C. Bryant of Lorenzo and Albert McKay of Belton.

County Judge Jeff T. Kemp had fostered local interest in the occasion and had asked the trustees of the schools in Bryant Station, Buckholts and vicinity to disband and join the motorcade to Austin that the youth of Milam county might be impressed with a knowledge of the deeds of the pioneers. A wide response to this request was had and many from the various schools of Milam county were present at the ceremonies.

Buckholts, South Elm and Friendship schools were represented by teachers and pupils. The Bryant Station school trustees went and provided a way for every pupil of the school to be present. Our Senator Poage conducted for them a tour through

Three Years On All
1931 Frigidaires**Dayton, Ohio, March 9—A three
year dual guarantee has been announ-
ced by Frigidaire Corporation to
cover its 1931 line of household elec-
tric refrigerators, now being manu-
factured in great quantities. The
new service guarantee applies both
to the Frigidaire cabinet and me-
chanism, the announcement says.'This dual guarantee is the broad-
est in the history of Frigidaire Cor-
poration,' said E. G. Biechler, presi-
dent and general manager of the Gen-
eral Motors subsidiary. 'We have
been able to adopt it because of the
experience we are having with cur-
rent Frigidaires and the fact that all
of our household models are finished
in permanent porcelain on steel.
'We have just completed a series of
dealer meetings throughout the coun-
try where the new line was presented
and announcement made of the most
intensive advertising campaign in our
history. Reports from these meet-
ings indicate a decided upturn in our
business during the coming months.'According to the announcement,
engineering refinements developed
over a period of fifteen years made it
possible to cover the mechanism of
the new Frigidaires with the three
year service guarantee. Lengthy ex-
perience with porcelain enamel pro-
cessing done in the largest porcelain
enameling plant in the world resulted
in the equally binding guarantee on
the cabinets.The new white Frigidaires, to which
the dual guarantee applies are said
to have more shelf area, larger ice
capacity, increased freezing speed,
less current consumption and lower
operating cost. The food compart-
ment is lined with special acid resist-

TEXAS AND TEXANS

Getting Back to Prosperity

No one at all acquainted with conditions can doubt that the country, and especially Texas, has entered a new era of prosperity. The signs are too evident to be mistaken. They can be seen all about us and are reflected in the conversation of the people as well as in their actions. Every Chamber of Commerce, every Civic Club, every organization in which people meet and talk together is now characterized by a spirit of optimism that is entirely different from that of a few months ago.

A rapid comeback to former conditions is not to be expected—in fact it is not wanted. The country was going at too great a rate; speculation

had precedence over business; a get-rich-quick mania had seized the country, and with it there was a disposition to spend beyond and ahead of earnings. Prices were inflated beyond reason, but that did not check the wild spending. When the inevitable deflation started the country was not prepared for it, and unfortunately it started at a time when vast sections of the country were suffering from severe drouth. This made the return to prosperity longer in starting than otherwise it would have been, and is yet causing a slower, though a surer return to normalcy. The valley of depression has been crossed and the country is again headed for another peak of prosperity.

The Bonus Loan

The immediate operation of the Veteran's bonus loan bill will put into circulation in Texas at an early date more than \$35,000,000, which will be distributed among 142,855 World War certificate holders in the State, giving the use of that much money at a low rate of 4 1/2 per cent interest. This vast sum will go into development and trade channels and will increase the per capita circulation about \$6.00. The loan comes at a time to be of greatest help to the entire country as well as to the veterans.

Texas Building Allotment

Not only will there be much activity in the construction of postoffice and other Federal buildings in Texas during the rest of 1931, but the allotment for 1932 is especially favorable to this State. As now apportioned and as it is most likely to pass, Congress this will include the following construction:

Abilene \$345,000, Amarillo \$35,000, Aransas Pass \$90,000, Athens \$65,000, Austin courthouse \$625,000, Ballinger \$80,000, Borger \$100,000, Bowie \$75,000, Brady \$85,000, Childress \$100,000, Colorado \$85,000, Corpus Christi \$165,000, Dalhart \$100,000, Dallas parcel post \$850,000, Eastland \$85,900, Edinburg \$95,000, El Paso \$1,250,000, Galveston Post office \$775,000, Graham \$95,000, Henderson \$80,000, Kerrville \$95,000, La Mesa \$95,000, Kingsville \$75,000, Laredo \$285,000, Lockhart \$85,000,

Longview \$35,000, Lufkin \$105,000, Luling \$90,000, Mercedes \$85,000, Midland \$100,000, Mission \$85,000, Nocona \$85,000, Pecos \$160,000, Port Arthur \$195,000, Quanah \$85,000, Ranger \$85,000, San Antonio \$1,400,000, Shamrock \$80,000, Vernon \$50,000, Waco \$500,000, Wharton \$80,000.

Millions in Citrus Fruits

About \$10,000,000 is being spent in the Lower Rio Grande Valley in the development of the citrus industry, including the clearing of thousands of acres, the construction of irrigation systems, the building of roads, the planting and cultivating of young trees and the construction of necessary buildings. Two tracts comprising 21,000 acres between San Benito and Brownsville are among the huge development projects, the canal and irrigation system for which alone will cost \$2,000,000. Great things are under way in Texas.

Connecting Great Lakes

The Hamilton Dam lake, now under construction, will be the largest in land body of water in the Southwest. Six million dollars is to be spent in the development of the lake and the great power project. The lake lies some 60 miles Northwest of Austin in Burnet and Llano counties. It will be stocked with fish and will have a shore line of 40 miles unsurpassed for natural beauty.

Another great lake now being built lies along Pecan Bayou and Jim Ned Creek some seven or eight miles Northwest of Brownwood. The investment in this will be about \$1,500,000, the water to be used for supplying Brownwood and for irrigating some 12,000 acres of land. Its shore line, equaling that of Hamilton Lake in scenic beauty, along both streams will be 100 miles. This lake will also be stocked with fish and its shores will also be a tourist resort.

It is now proposed to connect these two lakes with a modern road running directly thru San Saba and connecting with direct roadways to Austin, Houston and San Antonio. The only part that will have to be newly built will be that between Brownwood and Hamilton Lake. Big things are under way in Texas.

Texas Sulphur Supply

The world supply of sulphur is variously estimated at from 36,000,000 to 121,000,000 metric or long tons of which the Texas reserve, not including recent discoveries in West Texas, is estimated at 40,000,000 long tons. Present annual production of sulphur in Texas is about 2,400,000 tons or about 80 to 90 per cent of that of the world. Italy is the only country that approximates Texas in reserves, with Chili a poor third. Sulphur production is among the great industries of the State.

Texas Granite to New York

The \$1,000,000 memorial to Theodore Roosevelt to be erected in New York will be constructed of Texas granite, but the Texas Bar Association will use Georgia products to build a monument on the Texas Capitol grounds to Texas judges. Some day our own people may come to appreciate as they should the real value of Texas products as compared with those of other states and countries.

Goat Shearers Busy

Goat shearing has started in Texas and as soon as it is evident that there will be no more winter thousands of shearers will be busy. Texas produces about 80 per cent of all the mohair grown in this country, and the industry keeps many laborers busy during shearing seasons.

Helping Home Industry
The merchants of Sabinal have

agreed to sell only Sabinal-made bread and the Sabinal baker has agreed to supply the bread of as good quality and at as reasonable prices as can be obtained elsewhere by Sabinal merchants. Why not apply the same rule to the Sabinal printer and to every other product that can be obtained in the town? Home folks should at least be given 'an even break' with others. This is not always done.

Wants More Help

Attorney General Allred is asking the legislature for five more assistants, increasing the number from 11 to 16. He also asks that his department be allowed to serve as counsel for the University of Texas, which is seeking an allowance for employing a special attorney.

Just now the Attorney General is making plans for an investigation to determine why gas and refined oils are selling for more than when crude oil was about twice as high as it now is. The public will be glad to get the answer, and to have any wrong conditions vigorously corrected.

Reducing Cotton Cost

A young farmer at Buda, who kept books, last year raised cotton on 7 acres of terraced land at a cost of 3.6 cents a pound ginned, exclusive of his own labor. The expense included \$7 an acre rent, use of team and tractor, cost of hoeing, seed, picking, ginning and depreciation of tools. He plowed the land six inches deep in November, beeded it in December and beginning when the cotton was two weeks old, plowed it shallow 7 times. Evidently the cost of cotton growing depends somewhat on how thoroughly it is done.

Stigall and Thorndale Mercantile Company, being all the plaintiffs, cross-plaintiffs, defendants and interveners in said consolidated suits, and I have levied upon and will sell said property in accordance with the directions of said decree.

The same being a tract of 80 6/10 acres out of the Chas. Fokes (Abigail Fokes) survey in Milam County, Texas, located in the County of Milam and State of Texas, and known as part of the old J. J. Stigall homestead tract and about two miles West of the village of San Gabriel in Milam County, Texas, and being off of the Eastern portion of said old 214 acre homestead tract, lying in a parallelogram about 200 yds. wide on the North end and practically the same on the South end, which is along a slough which slough is just South of the San Gabriel and Lane Port public road.

We like the fellow who says he likes to hear a man say what he thinks and tells the truth when he says it. Too often the fellow who tells you he likes to hear a man say what he thinks, doesn't mean it at all, if you happen to think differently than he does. He means he likes to hear you say what he thinks. Whatever other good qualities he may have, a man who can't let the other fellow have an opinion without being offended and severing friendly relations is narrow, intolerant, bigoted and ignorant. We enjoy talking with the fellow who thinks differently than we do. We enjoy the conflict. We always receive more thought stimulation from the fellow who thinks differently than we do, than we do from the man who thinks the same as we do. To us, the fellow who always straddles a proposition for fear of public opinion is as insipid as flat soda water.

Thomas Marshal used to say that what this country needs is a good five cent cigar. A more urgent and general need is that we think more and talk less.

Charles Darwin did not believe that man descended directly from any other animal now in existence, but he did believe that man and the apes descended from a common ancestor that was ape like.

Lending more money to farmers and giving away a few millions will not bring prosperity.

The trouble is world-wide and this world isn't a very small affair any more; and more and more the world must assume the role of being my brother's keeper, but that is a long process.

There is a very few people in the world who are really wise in one way or another. I have often wondered what would happen if all of us were endowed with wisdom.

Nothing in this world is worth while unless a meal ticket goes with it.

Look to the farmers, they are beginning to turn over the earth. They will work early and late even if the prospect is disastrous. You can depend on the farmer.

Some time ago Babson, the statistician said that the American farmer was now flat on his back and had to look up. We think he was wrong. The farmer is on his stomach with his face buried in the mud.

SHERIFF'S SALE

The State of Texas,
County of Milam,
Whereas, on the 6th day of December, A. D., 1930, in a certain cause, numbered 1242 on the docket of the District Court of said county, wherein the State of Texas is plaintiff and Leo Taylor, Alice Estham and A. J. Estham, defendants, the said plaintiff recovered judgment in the amount of one hundred and eighteen dollars for taxes, and legal amount penalties, costs and interests computed thereon, together with the foreclosure of plaintiff's delinquent tax liens upon the property hereinafter described as the property of the defendants, because of non-payment of the taxes due thereon;

And whereas, on the 6th day of March, A. D., 1931, by virtue of the said judgment and the mandates thereof, the Clerk of the District Court of said county did cause to be issued an Order of Sale, commanding me as Sheriff of said County to seize, levy upon and sell in the manner and form as required by law the herein-after described property as the property of the above defendants, to satisfy the said judgment.

**FORD SHOW ATTRACTS BIG
CROWD FRIDAY AND
SATURDAY**

Thousands See Pictures
Of Production At
Ford Plant

The display of the complete line of Ford passenger and commercial cars and trucks and exhibits showing how they are made, attracted large crowds to the Ford show presented by Hefley-Stedman Motor Company, local dealers in cooperation with nearby dealers and the Houston branch of the Ford Motor Company. The show was held in a tent at Cameron on Friday and Saturday, March 6 and 7, being open to the public from 10 a. m. to 10 p. m. each day.

Friday and Saturday thousands of persons are estimated to have visited the show, according to Mr. Stedman of Cameron. This unusual interest is due in part, he said, to the fact that the show offers a rare opportunity for the public to see all the body types at one time in one place.

A feature of the show was the moving picture depicting the manufacture of the Ford from the production of raw materials to the finished car. This picture gives one a comprehensive idea of quantity production and of the extent to which waste and by-products are utilized.

The Fords, resplendent in their various colors and lustrous rustless steel trimmings, attracted attention from all. Attendants were kept busy answering questions and explaining the features of the new body types—why it is that rustless steel retains its luster permanently without polishing, how the double-acting shock absorbers work, how the drivers' seats in closed cars are adjusted, and so on.

By means of a cut-away body and chassis, explanations of features of body construction and mechanical de-

tails were made so plainly that even the layman could understand them. The body is cut practically in half, revealing the construction of the steel body panels, roof and seats. Portions of the chassis are cut away to disclose moving parts in the transmission, brakes and rear end. There is also a cut-away chassis of the Model AA truck.

Explanations were further illustrated by special displays of Ford parts, such as rustless steel, shatter-proof glass, ball and roller bearings, forgings and accessories.

**Training Program
For Scout Leaders**

With the opening of the training course for Scoutleaders in McGregor Monday night, the Heart O'Texas Council has set out upon one of the most elaborate training programs yet attempted by the council, according to B. B. Cobb, general chairman of Leadership Training for the area.

At present there are 236 Scoutleaders enrolled in the courses which are being held at Lott, Waco, Mexia, Temple, Cameron and McGregor.

The troop leaders are busily engaged in a serious course of study that will make them more proficient in directing their troop's work. Particularly is this series of sessions being devoted to problems of troop management, dangerous pitfalls of troop work, ways of increasing the interest of boys through hikes, scout tests, the Good Turn, etc.

The next session of the Scoutleaders of this district will be held at Cameron on March 10. C. Y. Meyers Field Scout Executive, is assisting the local men in the course.

ENGINEER GAVE UP

Says He Could Not Stand Indigestion Any Longer.—Relieved By Black-Draught.

Pulaski, Va.—How a railroad engineer was relieved of indigestion was described by Mr. C. K. Nelson, a Fourth Street resident of this city. Mr. Nelson said:

"I was suffering from stomach trouble in 1917, and had been suffering for some time. I had a tightness in my chest, a shortness of breath. There seemed to be a heavy weight in the pit of my stomach, and quite a bit of nausea, yet I couldn't vomit. I tried different remedies, yet suffered on just the same. When in West Virginia, on a work train, I was in such a condition that I just gave up and came home. I couldn't stand to work, in my condition.

"Some one told me about Black-Draught. I started taking it in small doses after meals. It helped me, and I went back to work.

"One morning while on my engine I felt like I would smother. I stopped in a little town, bought a package of Black-Draught, took a dose and later in the day took another dose. It relieved me and I have not had a bad spell like that in more than two and a half years."

Thedford's Black-Draught contains no chemicals. Composed of pure botanical roots and herbs.

JURY AWARDS DAMAGE IN DENSON LITIGATION

TEXAS POWER & LIGHT COMPANY MAKES MOTION FOR NEW HEARING IN CASE

A jury in district court last Friday awarded damages to Mrs. W. B. Denson in her suit against the Texas Power & Light Company for injuries received in an automobile accident when her car was struck by a car driven by Joe Deaton, employee of the company last fall.

Damages awarded by the jury in favor of Mrs. Denson are as follows: Personal damages \$6000; hospital and doctor's expense \$458.35; allowance for car \$225.

In arriving at the damage to the car the jury estimated in its verdict the car was worth \$375 before the wreck and after crash was worth \$150. The difference would represent the award of \$225.

In its motion for a new hearing which has not been acted upon by Judge John Watson, attorneys Dan Moody and A. E. Wood, set out the claim that the car driven by Joe Deaton was his personal machine and did not belong to the Texas Power & Light Company, that he drove it without knowledge or consent of the company. The contention is that as a result of this situation the company is not liable for any damages either to the car or to Mrs. Denson who was severely injured.

Mrs. Denson was represented in the case by Winbourne Pierce of Temple and W. G. Gillis of Cameron.

Texas Power-Light Company To Give Radio Program

To the Agricultural Workers of Texas:

Texas' farmers will soon be planting feed crops for 1931. Many have already determined the schedule upon which they plan to operate this year. Others have not. Therefore, the Texas Power and Light Company believes it is not too late to add another word of encouragement and advice toward breeder-feeder work. If farmers are to do any feeding this year, now is the time for them to make the necessary plans.

The annual Southwestern Exposition and Fat Stock Show, which opens this week, and the banquet of the Texas Breeder-Feeder Association next week in Fort Worth both support this work. With this in mind, the Texas Power and Light Company will dedicate this week's 'Telans-Let's Talk Texas' radio program to the Texas Breeder-Feeder Association. The program will be broadcast over WFAA at 7:15 p. m., Sunday, March 8. This information is given you in the hope and belief that you will pass it along to those you know who might be interested in hearing it discussed. President Frank Holland, Jr., will talk on this program, discussing the organization and its work.

Mr. John W. Carpenter, president of our company, is extremely interested in the success of the breeder-feeder movement and it is at his request that next Sunday's program will be dedicated to this important work.

PRESBYTERIAN MISSION SERVICES ON SUNDAY

Rev. O. C. Acree, pastor of the First Presbyterian church of this city will preach at Hayte Presbyterian church Sunday afternoon at 3 o'clock.

The Presbyterian church of Cameron has charge of three mission churches and Sunday schools, the other two being at Marlow and Curry. Attorney Jack Lewis will have charge at Curry Sunday afternoon.

Rev. Acree requests a full attendance on account of a congregational meeting to be held following the services.

Governor Alfalfa Bill Murray, of Oklahoma, is going after graft from the first jump of his administration. He is cutting off moochers on the pay roll, and endeavoring to reduce state expenses and general costs of government. All of which looks as though Governor Bill would be a one termer. The people clamor for a reduction in taxes but the man who to reduce taxes lops off the jobs is going to lose the support of the workers who are in politics for the reward and, without the workers no candidate can win. No man was ever re-elected yet because he had brought about a reduction in taxes. On the other hand many have been re-elected who have spent the state's money freely and have provided lots of jobs for the workers even at an increase in taxes.

Notwithstanding the present low price of butterfat, we still believe that a good herd of dairy cows year in and year out, will respond to intelligent handling and will make their owner money. The dairy dollar is still the most stable dollar of agriculture. The cow is a milk factory that consumes the raw material on the farm and furnishes a finished product that can be sold every day in the week and which will bring in a regular pay check.

WOMEN'S CLUB HERE OBSERVE FIFTH ANNIVERSARY

Hear Reports On Work Of Archaeological Research

Celebrating the fifth birthday anniversary of the Business and Professional Women's Club, gave interesting attraction at the call meeting of the club Tuesday evening, Miss Rose Rischer, president, presiding.

The club voted to take advertising space in the Texas Woman, state club magazine, to the amount of \$10. The club's objective this year has been archaeology, or Indian history and customs, and has added quite a bit to Indian history of Milam county and as a fitting souvenir of their accomplishments the president, Miss Rose Rischer presented the club with a large Indian arrow head, carved out of Milam county rock, bearing the B. & P. W. Club emblem with the name Cameron above; the work of Charles Doss of Rockdale, who has, perhaps, one of the largest collections of Indian relics in Milam county, having taken much interest in the collection of Indian relics and fossils. Mrs. Katie K. Robbins, who had charge of the program for the evening received the gift and in the name of the club thanked Miss Rischer.

Under the direction of Mrs. Robbins the following program was rendered:

A paper by Miss Rischer, 'Our Relation to the Redman,' was much enjoyed.

Miss Ivy Armstrong, playground supervisor of the Yoe high school and Miss Irma Porter, principal of the Ada Henderson grammar school, gave interesting talks on play and health.

Mrs. Roy P. Jeter rendered a piano solo and charmingly responded to a hearty encore.

Frank S. Lesovsky, president of the Cameron Commercial Club gave a splendid talk on Cooperation.

At the close of the program two large white birthday cakes, topped with burning tapers and spring flower corsages were brought in and cut, yielding up many symbols and was served with delicious fruit punch.

Guests besides club members present were Mrs. R. P. Jeter, Mrs. J. S. Owens, Mrs. Mattie Shepherd, Misses Irma Porter, Ivy Armstrong Malchen Rischer and Frank S. Lesovsky.

The Joy of Being An Editor

Getting out this paper is no picnic. If we print jokes people say we are silly;

If we don't, they say we are too serious.

If we clip things from other papers, we are too lazy to write it down ourselves.

If we don't we are stuck on our own stuff.

If we stick close to the job all day we ought to be out hunting up news. If we do get out and try to hustle we ought to be on the job in the office.

If we don't print contributions, we don't appreciate true genius; If we do the paper is filled with junk. If we make a change in a fellow's writeup,

We are too critical;

If we don't we are asleep.

Now like as not someone will say we swiped this one from some other paper.

WE DID.

Debt to Indians

(continued from page 1)

colleges have studied it but never a one has been able to breed it from the wild plant. The raising of corn isn't such a dumb thing, the kernels have to be removed from under the heavy husk, and planted then it needs frequent hoeing or the weeds and grass would choke it in no time. It must be gathered and some again saved for next year's planting. So it never came to us through any trick of nature, but through the genius of the so called savage.

Miles Standish has left a story of how the early Puritans would have starved had they not stumbled onto the Indians' corn mounds. These pious Puritans stole the Indians' corn and called it God's providence.

The Indian not only saved the first white man from starving but their trade enriched Europe, and made the rapid development of our country possible. The Indian was a consumer of goods, eager to buy and pay extravagantly in furs and other products. In fact it can almost be said the Indian put the American white man on the map. If the white man had not been so quick on the trigger he might have learned a great deal from the Indian, for one; a great moral lesson for immorality and venereal diseases did not exist among the Indians.

We are now beginning to have community singing. The Indians had it always, not only community but national. They had songs that one would start, the next take up and so on until the whole country was singing. It was almost a broadcasting system.

Then we, even in all our finery don't look as majestic as the Indian did in his. One of the most magnificent sights I ever saw was an Indian parade at the roundup in Pendleton, Oregon.

Another time I was going from Spokane to Coeur d'Alene, it was just before Christmas and the train was packed with Christmas shoppers. Everybody was getting settled and quiet, you know they don't have that free and easy way of speaking to each other in the north as we do in the south. Just as the train was about to pull out, four old blanket Indians came in, and they had Christmas shopped too. They were so happy over their purchases they immediately began to show what they had. One had the familiar monkey climbing up the string and several such toys. They got so happy playing with them and having so much fun, that in less than ten minutes everybody in the car was laughing. We shed tears of laughter at those Indians. That was eighteen years ago.

We would no doubt feel more kindly toward this 'ignoble, warlike savage' if the early civilized historian had not given us such a biased account of him.

Benjamin Franklin in a paper on the Redman said: 'We call him savage because his manners differ from ours, which we think the perfection of civility, they think the same of ours.'

At the treaty of Lancaster in 1744 the Virginia commissioners offered to take six Indian youths and instruct them at William and Mary. They politely refused, saying, 'Several of our young people were formerly brought up at the colleges of

the Northern Provinces, they were instructed in all your sciences but when they came back to us, they were bad runners, ignorant of every means of making a living in the woods, unable to bear either cold or hunger, knew neither how to build a cabin, take a deer, or kill an enemy spoke our language imperfectly, were therefore fit for hunters, warriors or counsellors, they were totally good for nothing. We are, however, not the less obliged by your kind offer, though we decline accepting it, and to show our grateful sense of it, if the gentlemen of Virginia will send us a dozen of their sons, we will take great care of their education, instruct them in all we know and make men of them.' The offer was received in silence, courteously refused.

I wonder if the Boy Scouts of today would refuse it, or even the arrow hunting squad of the Business & Professional Women's Club, because we have in a manner learned to appreciate our relations to the Redman and to use the High Chief's own expression, 'To show our grateful sense of it,' will ask this club to accept the gift in commemoration of its fifth birthday. Miss Rischer then presented the beautiful Indian arrow head that she had prepared out of Milam county granite rock, with the B. & P. W. Club emblem.

Mrs. Sanders Badly Injured In Fall At Minerva Home

The many friends of Mrs. Sanders of Minerva, who formerly lived in Cameron will regret to learn of her painful accident which occurred on Thursday morning at her home. While standing in a door, she accidentally fell out the back steps, breaking both arms above the wrist. Mrs. Sanders was alone at the time of the accident and it was several hours before she received first aid. At the present time she is doing as well as could be expected but is totally unable to do anything for herself.

We are glad to report that Mrs. R. L. Batte who has been confined to her bed for several weeks is now improving.

CHARITY FUNDS ARE LOW AND WORK HAMPERED HERE

Need For More Funds Is Expressed At Meet On Friday

The regular monthly meeting of United Charity Workers was held last Friday, March 6 at 3:30 at the home of Rev. J. P. Love.

Business included discussion of the supplying of food, fuel and employment for destitute families.

The funds of the organization are so low that they must be augmented if the relief work is to continue.

Help has been rendered by the city's paying two thirds of the wage to about thirty men employed on street work. The families of these men are in need and vouchers are given after each day's work, redeemable at local groceries.

The local post, American Legion, has given large quantities of wood and individuals have also given both wood and hauling.

Contributions for further relief work are urgently needed and may be sent to the treasurer, Mrs. W. O. Triggs.

The membership of the United Charity Worker's Board of Directors consists of the following: President, Mrs. Cora Cammer; Secretary, Mrs. Graham Gillis; Treasurer, Mrs. W. O. Triggs; and representatives of the County, City, American Legion, Business and Professional Women's Club, Commercial Club, Federation, and the Baptist, Catholic, Christian, Episcopal, Methodist and Presbyterian churches.

Chairmen of Standing Committees: Employment, Mrs. Cora Cammer and Mrs. H. C. Keith. Wood, W. R. Hoover. Cooked Food, Mrs. M. M. Chambers.

THE OLD HEN CACKLED . . . BUT THE QUESTION IS "WHO LAID THE EGG?"

The end of the period of hard times is at hand, according to Wade McCoy, of Rockdale, who last Thursday was displaying an egg bearing the following inscription: END NEARS! The inscription was in plain, easy to read capital letters—even to the exclamation point—which the old hen probably added to save the exertion of cackling.

McCoy says he will give \$5.00 to any man, woman or child who can, through chemical treatment or otherwise, produce another egg which will duplicate this one. He is firm in the belief that Old Biddy did this job herself, and that the inscription

means that the end of the business depression and hard times is at hand. Supporting that contention, he points to the fact that the price of eggs went up two cents per dozen in Rockdale Saturday and that local farmers that day profited more than \$20 on their egg sales.

McCoy's egg has attracted much attention the past week, several hundred people having inspected it and passed various forms of judgment as to whether the job was really done completely by the hen, or if outside help of some joker was employed by Old Biddy.—Rockdale Reporter.

PATE CAROTHERS, AGED NEGRO WOMAN DEAD

BORN IN SLAVERY AND WAS RESIDENT IN M. G. COX HOME HERE

Darkies of the old slavery days have rapidly passed away and among them to go was Pate Carothers who was born in slavery, and when a girl became the maid of Miss Sue Glover, who later married Judge T. N. Cox of Clayton, Ala., and was their house girl and maid in their home, and helped them rear their family, and later moved with them to Texas and after the death of Judge Cox and wife, was taken into the home of Mr. and Mrs. M. G. Cox where she remained the same faithful servant, serving them with true devotion and humility that had marked her characteristics through life.

Pate, as she was known by all, was an outstanding darkey. She was a member of the Methodist church, had been from childhood; was always kind and gentle and respectful to all whom she came in contact with; loved children, who in turn respected her and called her 'friend Pate.' She was past 80 years old at the time of her death Saturday, March 7 at 4:30 p. m. at the home of Mr. and Mrs. M. G. Cox where she had received every attention that could be given her. By special permit of Oak Hill Cemetery Association, she was laid to rest at the feet of her former master and mistress, the late Judge T. N. Cox and wife, amid a profusion of floral offerings, sent in by white friends, many of them attending her funeral, some coming from nearby towns. Rev. N. D. Timmerman, pastor of the First Baptist church, held the ceremony at the grave Sunday afternoon at 4:30 o'clock.

Lehmborg, who was not able to be present, Miss Frankie Slaughter, represented him, and Rev. J. P. Love, of the Episcopal church; male quartette, Messrs. Gayle, Strickland, Cox and Hays; vocal solo, Mrs. Wilson Gunn; violin numbers by Mrs. C. W. Bradbury and Miss Imogene Sapp; readings by Misses Mary Frances White and Mary Francis Bragdon; Mesdames W. LEGION CELEBRATION IS HELD IN CAMERON MARCH 7-8

District Convention In City Attracts Big Delegation

With more than 150 registrations the Sixth District Convention of the American Legion was held in Cameron Saturday and Sunday, March 7 and 8 under the auspices of Edwin Hardy Post No. 9.

A feature of the celebration program was a patriotic address on Saturday evening at the Yoe high school building with Judge W. C. Davis of Bryan, delivering the speech. Judge Davis was former district attorney here and is now district judge for Brazos county and district. His address was heard by a large number of Legionnaires and people of Cameron.

Delegates from the several counties began arriving in Cameron Saturday and continued through Sunday morning. The Auditorium Hotel lobby was used by invitation of Mgr. S. A. Cottle and the reception committee met the delegates.

On Saturday afternoon the first of the rabbit races program was held at Lawless Green Field. The racing program was continued and closed the program of entertainment on Sunday afternoon. A large crowd witnessed the events. Dogs entered by D. Burke of Chilton won first prize. The races were exciting and afforded an event of fine entertainment for the spectators. Kansas jack rabbits were shipped to Cameron for the races.

On Sunday morning special services were held in the churches for the visiting Legionnaires. On Saturday night a dance was given at the country club with J. D. Lewis playing dance music for the occasion.

At noon Sunday the delegates were served a luncheon at the Legion club rooms in the old grammar school building.

W. R. Hoover, post commander and P. W. Davis, adjutant, directed the program activities in cooperation with committees named at meetings held in February. The convention was a success in every way and the people of Cameron gave their cooperation to make the convention successful.

DEBT TO INDIAN RACE IS DISCUSSED AT MEETING

Miss Rischar Presents Paper On Life Of Red Men

The following interesting paper was read by Miss Rose Rischar at the birthday party celebration of the Business and Professional Women's Club Tuesday evening March 11 on 'What have we gained by our relation with the Redman?'

The Redman laid the foundation of the economic greatness of the United States. It is not that we took merely his land; we acquired tobacco, potatoes, tomatoes, maize, peanuts and some additional forty food plants.

The yearly value of these products produced in the United States alone when stated in dollars is incomprehensibly large. We would have developed tobacco in time, maybe, but it took the Indian centuries to develop the art of the plant. The potato became the most popular and widely used vegetable in Europe, even took on a foreign name of Irish because it has saved that country from many terrible famines.

Peanuts have done their best but it seems how the humble tomato is coming to the rescue of Milam county; though we don't use as much catsup and tomato condiments as the northern states. So the slogan from now on may be 'Use more tomatoes, instead of, use more cotton.'

Corn, the backbone of the Mississippi Valley would probably never have been discovered. Numerous

BODIES TEXAS PATRIOTS BURIED IN AUSTIN CEMETERY

Many From Milam Go To Austin Tuesday For Ceremony

At seven o'clock Tuesday morning a motorcade of several cars led by Sheriff L. L. Blaylock left for Austin to attend the ceremonies attendant upon the re-interment of the remains of two of Milam County's earliest pioneer citizens, Major Benjamin Franklin Bryant and his wife, Roxanna Price Bryant, in the State Cemetery. T. B. Weed, funeral director, of Austin, had full charge of the removal of the remains from a private burial place near old Bryant Station in Milam county, the pioneer trading post which was once a prominent center of the activities of the period. It was a village of commercial importance and from it went E. M. Scarborough, prominent Austin merchant, lately deceased, to establish his name as an Austin capitalist. He loved to recount tales of his residence in Bryant Station. This old Indian trading post was a midway stage stop between Marlin and Austin, in days of the Republic of Texas.

On Tuesday in the House of Representatives in joint session with the Senate, Texas paused to do honor to these patriots when the industry of L. W. (Wiltz) Kemp, a former Cameron citizen, and now prominent Texas Company employe, had caused to be removed in discharge of the legislative enactment providing the funds of the state to carry on this patriotic work under his direction and supervision.

The Bryant relatives and descendants from widely separated points in Texas had gathered in Austin to be present for the obsequies. The pall bearers were the following great grandsons: L. R. Bryant of Rogers, H. H. Bryant of Temple, H. D. Bryant of Bartlett, R. G. Bryant of Moulton, E. C. Bryant of Lorenzo and Albert McKay of Belton.

County Judge Jeff T. Kemp had fostered local interest in the occasion and had asked the trustees of the schools in Bryant Station, Buckholts and vicinity to disband and join the motorcade to Austin that the youth of Milam county might be impressed with a knowledge of the deeds of the pioneers. A wide response to this request was had and many from the various schools of Milam county were present at the ceremonies.

Buckholts, South Elm and Friendship schools were represented by teachers and pupils. The Bryant Station school trustees went and provided a way for every pupil of the school to be present. Our Senator Poage conducted for them a tour through

cover its 1931 line of household elec-

new service guarantee applies both
to the Frigidaire cabinet and me-

been able to adopt it because of the
experience we are having with cur-

of our household models are finished
in permanent porcelain on steel.'We have just completed a series of
dealer meetings throughout the coun-

and announcement made of the most
intensive advertising campaign in our
history. Reports from these meet-

business during the coming months.'According to the announcement,
engineering refinements developed
over a period of fifteen years made it
possible to cover the mechanism of
the new Frigidaires with the three
year service guarantee. Lengthy ex-
perience with porcelain enamel pro-
cessing done in the largest porcelain

Getting Back to Prosperity

No one at all acquainted with conditions can doubt that the country, and especially Texas, has entered a new era of prosperity. The signs are too evident to be mistaken. They can be seen all about us and are reflected in the conversation of the people as well as in their actions. Every Chamber of Commerce, every Civic Club, every organization in which people meet and talk together is now characterized by a spirit of optimism that is entirely different from that of a few months ago.

A rapid comeback to former conditions is not to be expected—in fact it is not wanted. The country was going at too great a rate; speculation

had precedence over business; a get-rich-quick mania had seized the country, and with it there was a disposition to spend beyond and ahead of earnings. Prices were inflated beyond reason, but that did not check the wild spending. When the inevitable deflation started the country was not prepared for it, and unfortunately it started at a time when vast sections of the country were suffering from severe drought. This made the return to prosperity longer in starting than otherwise it would have been, and is yet causing a slower, though a surer return to normalcy. The valley of depression has been crossed and the country is again headed for another peak of prosperity.

The Bonus Loan

The immediate operation of the Veteran's bonus loan bill will put into circulation in Texas at an early date more than \$35,000,000, which will be distributed among 142,855 World War certificate holders in the State, giving the use of that much money at a low rate of 4 1/2 per cent interest. This vast sum will go into development and trade channels and will increase the per capita circulation about \$6.00. The loan comes at a time to be of greatest help to the entire country as well as to the veterans.

Texas Building Allotment

Not only will there be much activity in the construction of postoffice and other Federal buildings in Texas during the rest of 1931, but the allotment for 1932 is especially favorable to this State. As now apportioned and as it is most likely to pass, Congress this will include the following construction:

Abilene \$345,000, Amarillo \$35,000, Aransas Pass \$90,000, Athens \$85,000, Austin courthouse \$625,000, Balinger \$80,000, Borger \$100,000, Bowie \$75,000, Brady \$85,000, Childress \$100,000, Colorado \$85,000, Corpus Christi \$165,000, Dalhart \$100,000, Dallas parcel post \$850,000, Eastland \$85,000, Edinburg \$95,000, El Paso \$1,250,000, Galveston Post office \$775,000, Graham \$95,000, Henderson \$80,000, Kerrville \$95,000, La Mesa \$95,000, Kingsville \$75,000, Laredo \$285,000, Lockhart \$85,000,

Longview \$35,000, Lufkin \$105,000, Luling \$90,000, Mercedes \$85,000, Midland \$100,000, Mission \$85,000, Nocona \$85,000, Pecos \$160,000, Port Arthur \$195,000, Quanah \$85,000, Ranger \$85,000, San Antonio \$1,400,000, Shamrock \$80,000, Vernon \$50,000, Waco \$500,000, Wharton \$80,000.

Millions in Citrus Fruits

About \$10,000,000 is being spent in the Lower Rio Grande Valley in the development of the citrus industry, including the clearing of thousands of acres, the construction of irrigation systems, the building of roads, the planting and cultivating of young trees and the construction of necessary buildings. Two tracts comprising 21,000 acres between San Benito and Brownsville are among the huge development projects, the canal and irrigation system for which alone will cost \$2,000,000. Great things are under way in Texas.

Connecting Great Lakes

The Hamilton Dam lake, now under construction, will be the largest in land body of water in the Southwest. Six million dollars is to be spent in the development of the lake and the great power project. The lake lies some 60 miles Northwest of Austin in Burnet and Llano counties. It will be stocked with fish and will have a shore line of 40 miles unsurpassed for natural beauty.

Another great lake now being built lies along Pecan Bayou and Jim Ned Creek some seven or eight miles Northwest of Brownwood. The investment in this will be about \$1,500,000, the water to be used for supplying Brownwood and for irrigating some 12,000 acres of land. Its shore line, equaling that of Hamilton Lake in scenic beauty, along both streams will be 100 miles. This lake will also be stocked with fish and its shores will also be a tourist resort.

It is now proposed to connect these two lakes with a modern road running directly thru San Saba and connecting with direct roadways to Austin, Houston and San Antonio. The only part that will have to be newly built will be that between Brownwood and Hamilton Lake. Big things are under way in Texas.

Texas Sulphur Supply

The world supply of sulphur is variously estimated at from 55,000,000 to 121,000,000 metric or long tons of which the Texas reserve, not including recent discoveries in West Texas, is estimated at 40,000,000 long tons. Present annual production of sulphur in Texas is about 2,400,000 tons or about 80 to 90 per cent of that of the world. Italy is the only country that approximates Texas in reserves, with Chili a poor third. Sulphur production is among the great industries of the State.

Texas Granite to New York

The \$1,000,000 memorial to Theodore Roosevelt to be erected in New York will be constructed of Texas granite, but the Texas Bar Association will use Georgia products to build a monument on the Texas Capitol grounds to Texas judges. Some day our own people may come to appreciate as they should the real value of Texas products as compared with those of other states and countries.

Goat Shearers Busy

Goat shearing has started in Texas and as soon as it is evident that there will be no more winter thousands of shearers will be busy. Texas produces about 80 per cent of all the mohair grown in this country, and the industry keeps many laborers busy during shearing seasons.

Helping Home Industry

The merchants of Sabinal have

agreed to sell only Sabinal-made bread and the Sabinal baker has agreed to supply the bread of as good quality and at as reasonable prices as can be obtained elsewhere by Sabinal merchants. Why not apply the same rule to the Sabinal printer and to every other product that can be obtained in the town? Home folks should at least be given 'an even break' with others. This is not always done.

Wants More Help

Attorney General Allred is asking the legislature for five more assistants, increasing the number from 11 to 16. He also asks that his department be allowed to serve as counsel for the University of Texas, which is seeking an allowance for employing a special attorney.

Just now the Attorney General is making plans for an investigation to determine why gas and refined oils are selling for more than when crude oil was about twice as high as it now is. The public will be glad to get the answer, and to have any wrong conditions vigorously corrected.

Reducing Cotton Cost

A young farmer at Buda, who kept books, last year raised cotton on 7 acres of terraced land at a cost of 3.6 cents a pound ginned, exclusive of his own labor. The expense included \$7 an acre rent, use of team and tractor, cost of hoeing, seed, picking, ginning and depreciation of tools. He plowed the land six inches deep in November, beeded it in December and beginning when the cotton was two weeks old, plowed it shallow 7 times. Evidently the cost of cotton growing depends somewhat on how thoroughly it is done.

Stigall homestead tract and about two miles West of the village of San Gabriel in Milam County, Texas, and being off of the Eastern portion of said old 214 acre homestead tract, lying in a parallelogram about 200 vrs. wide on the North end and practically the same on the South end, which is along a slough which slough is just South of the San Gabriel and Lane Port public road.

We like the fellow who says he likes to hear a man say what he thinks and tells the truth when he says it. Too often the fellow who tells you he likes to hear a man say what he thinks, doesn't mean it at all, if you happen to think differently than he does. He means he likes to hear you say what he thinks. Whatever other good qualities he may have, a man who can't let the other fellow have an opinion without being offended and severing friendly relations is narrow, intolerant, bigoted and ignorant. We enjoy talking with the fellow who thinks differently than we do. We enjoy the conflict. We always receive more thought stimulation from the fellow who thinks differently than we do, than we do from the man who thinks the same as we do. To us, the fellow who always straddles a proposition for fear of public opinion is as insipid as flat soda water.

Thomas Marshall used to say that what this country needs is a good five cent cigar. A more urgent and general need is that we think more and talk less.

Charles Darwin did not believe that man descended directly from any other animal now in existence, but he did believe that man and the apes descended from a common ancestor that was ape like.

Lending more money to farmers and giving away a few millions will not bring prosperity.

The trouble is world-wide and this world isn't a very small affair any more; and more and more the world must assume the role of being my brother's keeper, but that is a long process.

There is a very few people in the world who are really wise in one way or another. I have often wondered what would happen if all of us were endowed with wisdom.

Nothing in this world is worth while unless a meal ticket goes with it.

Look to the farmers, they are beginning to turn over the earth. They will work early and late even if the prospect is disastrous. You can depend on the farmer.

Some time ago Babson, the statistician said that the American farmer was now flat on his back and had to look up. We think he was wrong. The farmer is on his stomach with his face buried in the mud.

SHERIFF'S SALE

The State of Texas,

D., 1930, in a certain cause, numbered 1242 on the docket of the District Court of said county, wherein the State of Texas is plaintiff and Leo Taylor, Alice Estham and A. J. **FORD SHOW ATTRACTS BIG
CROWD FRIDAY AND
SATURDAY**

Thousands See Pictures
Of Production At
Ford Plant

The display of the complete line of Ford passenger and commercial cars and trucks and exhibits showing how they are made, attracted large crowds to the Ford show presented by Hefley-Stedman Motor Company, local dealers in cooperation with nearby dealers and the Houston branch of the Ford Motor Company. The show was held in a tent at Cameron on Friday and Saturday, March 6 and 7, being open to the public from 10 a. m. to 10 p. m. each day.

Friday and Saturday thousands of persons are estimated to have visited the show, according to Mr. Stedman of Cameron. This unusual interest is due in part, he said, to the fact that the show offers a rare opportunity for the public to see all the body types at one time in one place.

A feature of the show was the moving picture depicting the manufacture of the Ford from the production of raw materials to the finished car. This picture gives one a comprehensive idea of quantity production and of the extent to which waste and by-products are utilized.

The Fords, resplendent in their various colors and lustrous rustless steel trimmings, attracted attention from all. Attendants were kept busy answering questions and explaining the features of the new body types—why it is that rustless steel retains its luster permanently without polishing, how the double-acting shock absorbers work, how the drivers' seats in closed cars are adjusted, and so on.

By means of a cut-away body and chassis, explanations of features of body construction and mechanical de-

tails were made so plainly that even the layman could understand them. The body is cut practically in half, revealing the construction of the steel body panels, roof and seats. Portions of the chassis are cut away to disclose moving parts in the transmission, brakes and rear end. There is also a cut-away chassis of the Model AA truck.

Explanations were further illustrated by special displays of Ford parts, such as rustless steel, shatter-proof glass, ball and roller bearings, forgings and accessories.

**Training Program
For Scout Leaders**

With the opening of the training course for Scoutleaders in McGregor Monday night, the Heart O'Texas Council has set out upon one of the most elaborate training programs yet attempted by the council, according to B. B. Cobb, general chairman of Leadership Training for the area.

At present there are 236 Scoutleaders enrolled in the courses which are being held at Lott, Waco, Mexia, Temple, Cameron and McGregor.

The troop leaders are busily engaged in a serious course of study that will make them more proficient in directing their troop's work. Particularly is this series of sessions being devoted to problems of troop management, dangerous pitfalls of troop work, ways of increasing the interest of boys through hikes, scout tests, the Good Turn, etc.

The next session of the Scoutleaders of this district will be held at Cameron on March 10. C. Y. Meyers Field Scout Executive, is assisting the local men in the course.

ENGINEER GAVE UP

Says He Could Not Stand Indigestion Any Longer.—Relieved By Black-Draught.

Pulaski, Va.—How a railroad engineer was relieved of indigestion was described by Mr. C. K. Nelson, a Fourth Street resident of this city. Mr. Nelson said:

"I was suffering from stomach trouble in 1917, and had been suffering for some time. I had a tightness in my chest, a shortness of breath. There seemed to be a heavy weight in the pit of my stomach, and quite a bit of nausea, yet I couldn't vomit. I tried different remedies, yet suffered on just the same. When in West Virginia, on a work train, I was in such a condition that I just gave up and came home. I couldn't stand to work, in my condition."

"Some one told me about Black-Draught. I started taking it in small doses after meals. It helped me, and I went back to work."

"One morning while on my engine I felt like I would smother. I stopped in a little town, bought a package of Black-Draught, took a dose and later in the day took another dose. It relieved me and I have not had a bad spell like that in more than two and a half years."

Thedford's Black-Draught contains no chemicals. Composed of pure botanical roots and herbs.

JURY AWARDS DAMAGE IN DENSON LITIGATION

TEXAS POWER & LIGHT COM- PANY MAKES MOTION FOR NEW HEARING IN CASE

A jury in district court last Friday awarded damages to Mrs. W. B. Denson in her suit against the Texas Power & Light Company for injuries received in an automobile accident when her car was struck by a car driven by Joe Deaton, employe of the company last fall.

Damages awarded by the jury in favor of Mrs. Denson are as follows: Personal damages \$6000; hospital and doctor's expense \$458.35; allowance for car \$225.

In arriving at the damage to the car the jury estimated in its verdict the car was worth \$375 before the wreck and after crash was worth \$150. The difference would represent the award of \$225.

In its motion for a new hearing which has not been acted upon by Judge John Watson, attorneys Dan Moody and A. E. Wood, set out the claim that the car driven by Joe Deaton was his personal machine and did not belong to the Texas Power & Light Company, that he drove it without knowledge or consent of the company. The contention is that as a result of this situation the company is not liable for any damages either to the car or to Mrs. Denson who was severely injured.

Mrs. Denson was represented in the case by Winbourne Pierce of Temple and W. G. Gillis of Cameron.

Texas Power-Light Company To Give Radio Program

To the Agricultural Workers of Texas:

Texas' farmers will soon be planting feed crops for 1931. Many have already determined the schedule upon which they plan to operate this year.

Others have not. Therefore, the Texas Power and Light Company believes it is not too late to add another word of encouragement and advice toward breeder-feeder work. If farmers are to do any feeding this year, now is the time for them to make the necessary plans.

The annual Southwestern Exposition and Fat Stock Show, which opens this week, and the banquet of the Texas Breeder-Feeder Association next week in Fort Worth both support this work. With this in mind, the Texas Power and Light Company will dedicate this week's 'Telans-Let's Talk Texas' radio program to the Texas Breeder-Feeder Association.

The program will be broadcast over WFAA at 7:15 p. m., Sunday, March 8. This information is given you in the hope and belief that you will pass it along to those you know who might be interested in hearing it discussed. President Frank Holland, Jr., will talk on this program, discussing the organization and its work.

Mr. John W. Carpenter, president of our company, is extremely interested in the success of the breeder-feeder movement and it is at his request that next Sunday's program will be dedicated to this important work.

PRESBYTERIAN MISSION SERVICES ON SUNDAY

Rev. Acree requests a full attendance on account of a congregational meeting to be held following the services.

Governor Alfalfa Bill Murray, of Oklahoma, is going after graft from the first jump of his administration. He is cutting off moochers on the pay roll, and endeavoring to reduce state expenses and general costs of government. All of which looks as though Governor Bill would be a one term.

The people clamor for a reduction in taxes but the man who to reduce taxes lops off the jobs is going to lose the support of the workers who are in politics for the reward and, without the workers no candidate can win. No man was ever re-elected yet because he had brought about a reduction in taxes. On the other hand many have been re-elected who have spent the state's money freely and have provided lots of jobs for the workers even at an increase in taxes.

Notwithstanding the present low price of butterfat, we still believe that a good herd of dairy cows year in and year out, will respond to intelligent handling and will make their owner money. The dairy dollar is still the most stable dollar of agriculture. The cow is a milk factory that consumes the raw material on the farm and furnishes a finished product that can be sold every day in the week and which will bring in a regular pay check.

WOMEN'S CLUB HERE OBSERVE FIFTH ANNIVERSARY

Hear Reports On Work Of Archaeological Research

Celebrating the fifth birthday anniversary of the Business and Professional Women's Club, gave interesting attraction at the call meeting of the club Tuesday evening, Miss Rose Rischer, president, presiding.

The club voted to take advertising space in the Texas Woman, state club magazine, to the amount of \$10.

The club's objective this year has been archaeology, or Indian history and customs, and has added quite a bit to Indian history of Milam county and as a fitting souvenir of their accomplishments the president, Miss Rose Rischer presented the club with a large Indian arrow head, carved out of Milam county rock, bearing the B. & P. W. Club emblem with the name Cameron above; the work of Charles Doss of Rockdale, who has, perhaps, one of the largest collections of Indian relics in Milam county, having taken much interest in the collection of Indian relics and fossils.

Mrs. Katie K. Robbins, who had charge of the program for the evening received the gift and in the name of the club thanked Miss Rischer.

Under the direction of Mrs. Robbins the following program was rendered:

A paper by Miss Rischer, 'Our Relation to the Redman,' was much enjoyed.

Miss Ivy Armstrong, playground supervisor of the Yoe high school and Miss Irma Porter, principal of the Ada Henderson grammar school, gave interesting talks on play and health.

Mrs. Roy P. Jeter rendered a piano solo and charmingly responded to a hearty encore.

Frank S. Lesovsky, president of the Cameron Commercial Club gave a splendid talk on Cooperation.

At the close of the program two large white birthday cakes, topped with burning tapers and spring flower corsages were brought in and cut, yielding up many symbols and was served with delicious fruit punch.

Guests besides club members present were Mrs. R. P. Jeter, Mrs. J. S. Owens, Mrs. Mattie Shepherd, Misses Irma Porter, Ivy Armstrong, Malchen Rischer and Frank S. Lesovsky.

The Joy of Being An Editor

Getting out this paper is no picnic. If we print jokes people say we are silly;

If we don't, they say we are too serious.

If we clip things from other papers, we are too lazy to write it down ourselves.

If we don't we are stuck on our own stuff.

If we stick close to the job all day we ought to be out hunting up news. If we do get out and try to hustle we ought to be on the job in the office.

If we don't print contributions, we don't appreciate true genius; If we do the paper is filled with junk.

If we make a change in a fellow's writeup, we are too critical;

If we don't we are asleep. Now like as not someone will say we swiped this one from some other paper.

WE DID.

It is said that Gov. Woodring is going to employ good looking and unmarried women to save the state. If he had a wife's advice he would not do that. The consequences are too far reaching.

Debt to Indians

(continued from page 1)

colleges have studied it but never a one has been able to breed it from the wild plant. The raising of corn isn't such a dumb thing, the kernels have to be removed from under the heavy husk, and planted then it needs frequent hoeing or the weeds and grass would choke it in no time. It must be gathered and some again saved for next year's planting. So it never came to us through any trick of nature, but through the genius of the so called savage.

Miles Standish has left a story of how the early Puritans would have starved had they not stumbled onto the Indians' corn mounds. These pious Puritans stole the Indians' corn and called it God's providence.

The Indian not only saved the first white man from starving but their trade enriched Europe, and made the rapid development of our country possible. The Indian was a consumer of goods, eager to buy and pay extravagantly in furs and other products. In fact it can almost be said the Indian put the American white man on the map. If the white man had not been so quick on the trigger he might have learned a great deal from the Indian, for one; a great moral lesson for immorality and venereal diseases did not exist among the Indians.

We are now beginning to have community singing. The Indians had it always, not only community but national. They had songs that one would start, the next take up and so on until the whole country was singing. It was almost a broadcasting system.

Then we, even in all our finery don't look as majestic as the Indian did in his. One of the most magnificent sights I ever saw was an Indian parade at the roundup in Pendleton, Oregon.

Another time I was going from Spokane to Coeur d'Alene, it was just before Christmas and the train was packed with Christmas shoppers. Everybody was getting settled and quiet, you know they don't have that free and easy way of speaking to each other in the north as we do in the south. Just as the train was about to pull out, four old blanket Indians came in, and they had Christmas shopped too. They were so happy over their purchases they immediately began to show what they had. One had the familiar monkey climbing up the string and several such toys. They got so happy playing with them and having so much fun, that in less than ten minutes every body in the car was laughing. We shed tears of laughter at those Indians. That was eighteen years ago.

We would no doubt feel more kindly toward this 'ignoble, warlike savage' if the early civilized historian had not given us such a biased account of him.

Benjamin Franklin in a paper on the Redman said: 'We call him savage because his manners differ from ours, which we think the perfection of civility, they think the same of ours.'

At the treaty of Lancaster in 1744 the Virginia commissioners offered to take six Indian youths and instruct them at William and Mary. They politely refused, saying, 'Several of our young people were formerly brought up at the colleges of

the Northern Provinces, they were instructed in all your sciences but when they came back to us, they were bad runners, ignorant of every means of making a living in the woods, unable to bear either cold or hunger, knew neither how to build a cabin, take a deer, or kill an enemy spoke our language imperfectly, were therefore fit for hunters, warriors or counsellors, they were totally good for nothing. We are, however, not the less obliged by your kind offer, though we decline accepting it, and to show our grateful sense of it, if the gentlemen of Virginia will send us a dozen of their sons, we will take great care of their education, instruct them in all we know and make men of them.' The offer was refused in silence, courteously refused.

I wonder if the Boy Scouts of today would refuse it, or even the arrow hunting squad of the Business & Professional Women's Club, because we have in a manner learned to appreciate our relations to the Redman and to use the High Chief's own expression, 'To show our grateful sense of it,' will ask this club to accept the gift in commemoration of its fifth birthday. Miss Rischer then presented the beautiful Indian arrow head that she had prepared out of Milam county granite rock, with the B. & P. W. Club emblem.
